

## TEC-LOCK™ Wedge

### Connection Technology | Semi Premium

#### Features

- Currently available in sizes ranging from 4.500 in. to 9.625 in.
- Semi-flush OD
- Wedge-style thread form
- Optimum run-out thread design for maximum axial efficiencies

#### Benefits

- Expanded box OD, smaller than coupling, provides less drag during installation
- Extreme high torque capability
- Undercut load and stab flanks ensure outstanding performance under extreme combined loads
- Tension efficiencies greater than 95%
- Compression efficiency 100%
- Tested for combined load, torque and fatigue

**TEC-LOCK™ Wedge provides premium performance at a semi-premium price.**

When combined with SealLube™ thread sealant, TEC-LOCK™ Wedge provides gas sealability on a product without a metal-to-metal seal, offering a cost-competitive alternative to premium connections.
