

Ezi-Adjust Wire Recovery Tool

Slickline Downhole Tools

Features

- Adjustable to cover wide range of pipe sizes
- Customer specified upper connection
- Locate the top of wire to be fished and capture to retrieve in single run

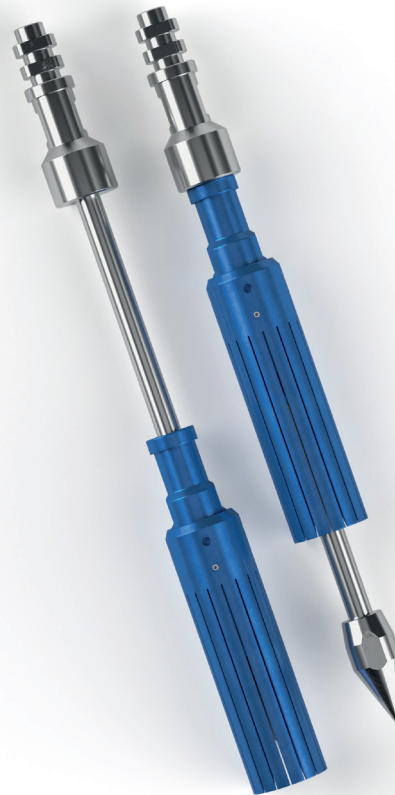

Benefits

- Adjustable wire finder reduces the inventory of Tool sizes required

Hunting’s Ezi-Adjust Wire Recovery Tool is available in different sizes, each with an adjustable range to fit the ID of various pipe sizes.

The Ezi-Adjust Wire Recovery Tool allows the adjustable sleeve to best-fit the pipe I.D. to find the top of the parted wire then capture for recovery.

Adaptable and robust, the Ezi-Adjust Wire Recovery Tools are offered with customer specified connections, including dummy rope sockets for improved recovery options.
